

## **Gardeners (Glasheen area)**

**We need one or two volunteers to maintain our lovely sensory garden in our Glasheen residential service. The volunteer's assistance will ensure the residents in Glasheen continue to have a beautiful garden to spend their time outside.**

Volunteers will keep the garden area free of debris and litter, plant, water, feed, trim and fertilize various plants and do weeding as required. The volunteer should have an interest and some knowledge of gardening.

The time can be flexible to suit the volunteer. This is a residential service so it is open seven days a week.

Volunteers will get to experience and see the impact that a sensory garden can make to people with an intellectual disability.
